Work Experience

Sep-23 – Apr-24   **Arebyte Gallery**   London, United Kingdom
Game Creator
- Independently produced a game on the theme of "Body, Mind and Soul" and plans to exhibit it.
- Built the game with Unity engine, modelled it with Blender, and programmed the game with C# and CS Program language.
- The game is planned to have four separate levels, completed through a five-month production cycle, and allow players to use the joystick for adaptation.
- Scenography and set-up in conjunction with the exhibition hall and conducting project management.

Sep-23 – Dec-23   **University College London**   London, United Kingdom
Transition Mentor
- Provide all necessary academic and non-academic guidance to new students and to meet with them once a week in person.
- Directing students with questions to the right department, handling and planning communication with them properly, and working with colleagues to plan social events within the department.
- Interfacing with school authorities and creating and counting questionnaires with time planning and management

---
